

The World Surgical Foundation, Inc.

All around the world there are children and adults who cannot get the healthcare they need. In many places, the technology is either not available or it's too costly. The World Surgical Foundation (WSF) takes healthcare to people who would not otherwise receive treatment.

WSF's greatest assets are the people who give their time to volunteer. Since 1997, volunteers have worked together to collect donated medical supplies/equipment and coordinate surgical missions to Ecuador, Ethiopia, Haiti, Honduras, India, Nigeria, Philippines, and Thailand. WSF mission volunteers use vacation time or unpaid leave and they pay their own travel and lodging expenses.

In recent years, we have been doing two one-week missions at different locations in the same country. This extends our reach, while holding down travel costs. On a one-week mission, the WSF team will spend the first day screening patients and setting up, then will keep multiple ORs busy from 7:30 a.m. to 6:00 p.m. for five days. And, that doesn't count the emergencies that are sent our way, which we rarely turn away if we have the ability and equipment to help.

In one week we perform between 100 -150 surgeries. The children and adults whose lives have been saved or changed add up to many thousands, but more importantly, each becomes an individual we know and remember. They change our lives, too.

There's an urgent need for WSF to purchase electrocautery machines, portable anesthesia machines and surgical headlights.

Your donation helps to fund these items and makes you part of the WSF team that saves and changes all of these lives.

OFFICERS

Domingo T. Alvear, M.D., Chair
Lorraine W. Bock, DNP, CRNP, President
Chinh N. Pham, Vice President
